

Moore's UCSD Cancer Center Medal of Excellence

The Moore's UCSD Cancer Center expects that its faculty and staff will treat you and your family with the utmost respect and will support you in every way possible. There are times, however, when an individual goes above and beyond our expectations and helps you in a special and remarkable way.

The *Medal of Excellence Award* was developed by the Patient Advisory Council to identify and reward extraordinary efforts made by non-physician staff at Moore's UCSD Cancer Center. These special people consistently surpass expectations and epitomize the spirit of Moore's UCSD Cancer Center. By their compassion, they are a role model their colleagues can emulate.

We invite patients and family members to identify our special people - those who exemplify the "care giver" -- by submitting a completed form in the Blue Box at the entrance to Center. Please provide a concise statement describing the nominee's qualifications for this award.

What is the full name of the person you wish to nominate?

In which clinical department does the nominee work?

How do you know the nominee?

What was it about the care and concern that this person showed that meant so much to you or your family member? Please try to be as specific as possible (what did they do or say that mattered so much to you?) so that others can learn from your positive experience. Share your special story.

Signed _____ **Date:** _____

May we contact you for more information? If so, please give us a telephone number or email address to make this possible.

The *Medal of Excellence* will be presented to one staff member annually, as determined by the Patient Advisory Committee. Along with their recognition, the recipient will receive a \$1,000 cash award.

Thank you for taking the time to let us know about the people at Moore's who go "above and beyond" in our efforts to provide exceptional patient care.
